Resolution on the Final Report on the flood and relief operations in the district of Pabna.

GOVERNMENT OF BENGAL.

Revenue Department.

Miscellaneous.

RESOLUTION—No. 13341 Misc.

CALCUTTA, THE 18TH NOVEMBER 1933.

READ—

Letter No. 1700M., dated the 2nd June 1933, from the Commissioner of the Rajshahi Division, submitting a final report on the flood and distress in the district of Pabna during the years 1931 and 1932.

2. The district of Pabna consists mainly of a low-lying tract, intersected by waterways and full of bils, within the angle formed by the junction of two of the greatest rivers in India whose high banks slope down towards the interior. Through it runs the depression leading down from the Challan bil, which forms the outlet for much of the drainage of northern Bengal. It is therefore liable to frequent floods.

In 1931 even before the great flood of that year there had been considerable distress in the district. Twenty square miles in the neighbourhood of Bhangoora in the Sadar subdivision were affected by failure, in whole or part, of the *aman* paddy crop and about 7 square miles in other parts of the subdivision were affected by flood. In the Serajganj subdivision the *aman* paddy crop of 1930 was abnormally low, and distress became fairly general throughout the subdivision.

The situation was rendered worse by the low prices due to the economic depression. The measures taken to relieve distress coupled with a good *aus* paddy crop would have restored the situation to normal had it not been for the flood of July 1931. In the Serajganj subdivision 52 relief centres were opened beginning from 24th April 1931 and in Sadar subdivision 9 centres from 1st July 1931. In the period from 1st January 1931 to 26th July 1931 the following allotments were made by Government:—

For agricultural loans—Rs. 2,65,000.

Advances for test relief works—Rs. 30,000.

For gratuitous relief—Rs. 25,000.

The great flood due to an abnormal rise of the Brahmaputra-Jamuna resulting from heavy rainfall began in Serajganj on 17th July 1931, and in Sadar on 20th July 1931, and reached its height in Pabna district by the 1st August 1931, in Serajganj and 4th August 1931 in Sadar. The flood remained high till the end of August. The flood extended also through the centre of the district up to the Challan bil and affected part of Rajshahi. A portion of the *aus* crop was harvested before the advent of the flood but much of it was damaged. A large portion of the *aman* crop was totally destroyed and in most places the depth of water prevented any attempt to produce a late crop. On the other hand much of the long-stemmed deep water *aman* paddy survived. The total area in the district affected by the flood is estimated at 1,340 square miles with a population of 1,068,491.

3. In the period from 27th July 1931 to 31st March 1932 Government allotted the following amounts:—

For agricultural loans—Rs. 1,85,000.

Advances for test relief works—Rs. 23,000.

For gratuitous relief—Rs. 19,900.

And in 1932-33:—

For agricultural loans—Rs. 50,000.

Advance for test relief works—Rs. 22,500.

Among the amounts contributed by non-official bodies were the following:—

(1) His Highness the Maharaja of Tippera—Rs. 600.

(2) The "Statesman" Flood Relief Fund—Rs. 282.

(3) Vivekananda Mission—Rs. 75.

(4) Sylhet-Kachar Flood Relief Committee—Rs. 250.

(5) Bengal Flood Relief Committee, Sambalpur—Rs. 300.

(6) Mahisadal Wards Estate—50.

The total amount spent by the district board on test relief works was Rs. 94,749-10-6 including the sum of

Rs. 75,500 advanced by Government. Sixteen important unmetalled roads were repaired and a canal excavated at Salap. The maximum number of persons attending test relief works was about 1,475 at the end of February 1932. The works were finally closed at the end of August 1932. The test relief works continued up to 24th September 1932 when the number of persons attending had fallen to 37. Gratuitous relief was distributed through 130 centres which were in charge of selected distributors, most of whom were presidents of union boards. The work was supervised by six circle officers and a Sub-Deputy Collector under the general supervision of the Subdivisional Officer of Serajganj and a Deputy Collector at Sadar. Two relief committees of officials and non-officials were constituted and several private relief societies operated in the district. Other measures for the relief of distress consisted of providing work in the form of paddy husking and jute spinning. A small quantity of seed was also distributed. Fortunately there was no outbreak of epidemic disease among human beings or cattle. There was no rise in the prices of food. There was a shortage of fodder in some areas during the floods and many of the cattle were fed for a time on water-hyacinth.

The distress caused by natural calamities was rendered worse by the general economic depression and the resultant general want of cash due to low prices. In spite of this, however, the anticipations of famine and of wholesale mortality from starvation which were freely circulated were not fulfilled.

[illegible] the Hon'ble Minister in charge of the Revenue Department and the Member of the Board of Revenue visited the district at the beginning of September 1931, there was reason to apprehend that the situation might become very serious before the next harvest, particularly as delay in starting relief works was unavoidable in areas which are normally under water throughout the rains. However the measures taken proved adequate. The situation had improved by the end of the financial year, and although test works were continued up to the end of August the numbers attending them fell after February. So great was the improvement that in 1932-33 a sum of Rs. 1,71,052 was recovered on account of agricultural loans from this district.

5. The Governor in Council is satisfied that the measures taken for relief of distress were adequate and successful. He desires to record his appreciation of the good work done by Rai S. C. Sinha Bahadur and Mr. S. K. Banarji, I.C.S., the successive Collectors of the district, and by Mr. A. C. Hartley, I.C.S., Subdivisional Officer, Serajganj, the Chairman of the district board, the District Engineer, and other official and non-official gentlemen and of the ability and energy with which they organized relief measures.

Order—Ordered that this resolution be published in the *Calcutta Gazette*.

31. **Storm signals.**—On the occurrence of signs of an approaching cyclone day signals No. X (Great Danger), consisting of two cones, apex to apex, and below them a vertical drum, will be hoisted during day light from the flagstaff on the roof of the Commissioner's office, Koilaghat, another similar signal from the flagstaff on the clock tower at the entrance to the Kidderpore Docks, and another on the flagstaff on the Assistant Harbour Master's House at Budge Budge. During the night, under similar circumstances, two red lights with a white light between them, all in a vertical line, will be exhibited from the same flagstaffs. When these signals are displayed, masters and persons in charge of all vessels whatever shall immediately take every precaution in their power to make their vessels snug and secure, by having awnings furled, and the lower and top sail-yard counter-braced or pointed to the wind, as seems best. Heavy hawsers shall be bent to both bower anchors ready for use.

(*a*) **Dangerous cargoes.**—Every license for the transport of explosives, petroleum, carbide of calcium or other dangerous cargo, shall be issued under the special rules for the time being in force; and no license issued under these rules shall take the place of or be regarded as a substitute for a special license for carriage of such cargo.

(*b*) A special license for the carriage of carbide of calcium shall only be issued to cargo boats falling under class 1 of rule 68 of Part III having no copper or brass in their construction, and carrying a tarpaulin which will, in the opinion of the Commissioners' Boat Surveyor, suffice to cover the hold and protect its contents from moisture.

(*c*) Applicants for a special license for the conveyance of carbide of calcium, which shall be renewed at intervals of not more than six months, shall certify in their applications that the conditions of clause (*b*) of this rule have been fulfilled.

(*d*) Any boat arriving in the port without a license or with a license which has expired, and desiring to discharge cargo, shall at once apply for an unloading permit at the nearest Inland Vessels Wharves Toll Office, deposit with the cashier in charge the license fee for one year and thereafter produce the boat for survey at the licensing buoy within one week of the date of entering the Port.

If the boat is not produced for survey within the time specified she will become liable to a further charge equal to the license fee for one year.

(*e*) Extension licenses may be granted for periods not exceeding three months at one-sixth of the annual license rate for each month's extension.

No extension license will be granted until the boat has been inspected and passed as fulfilling the conditions of rule 62 above.

Measurement of boats.

68. **Rules for measurement of cargo boats.**—*Length.*—The length shall be measured in feet from the inside of the stem post to the inside of the stern post.

Breadth.—The breadth shall be measured in feet from side to side, inside the ceiling plank, under the deck beam amidships. Where no ceiling plank is fitted the measurement shall be taken to the inside of the frame.

Depth.—The depth shall be measured in feet from the underside of the deck beam amidships to the upperside of the floor ceiling plank. Where no ceiling plank is fitted, the measurement shall be taken to the upper side of the keelson. The tonnage of cargo boats up to and including 50 tons shall be calculated from the formula.

Length × Breadth × Depth × K = Tonnage.

Where L = length in feet as defined above,

B = breadth in feet as defined above,

D = depth in feet as defined above,

and K = Constant which shall be as follows:—

Class I (*a*) For flush-decked, square built and open cargo boats and flats, K = ·009.

(*b*) For bazaar-boats, where the brake forward and aft does not exceed 9 inches K = ·008.

(*c*) For bazaar-boats, where the brake forward and aft exceeds 9 inches K = ·007.

Class II (*a*) For open country boats known as jolly boats or powcoes K = ·009.

(*b*) For open country boats known as hollahs K = ·0083.

(*c*) For bhurs and pansways K = ·008.

(*d*) For open country boats such as dinghees and bowleahs K = ·0064.

(*e*) For open country boats known as chotes K = ·0063.

Boats or flats of class I exceeding 50 tons shall be measured under the Merchant Shipping Act and any boat in class I may, if the owners show that the measurements made according to the above formula are inaccurate or oppressive, be measured under the Merchant Shipping Act.

Every boat or flat exceeding 10 tons shall have on her side a conspicuous mark to indicate the freeboard or greatest depth to which she may be immersed when loaded.

The freeboard shall be obtained from the following table:—

Freeboard Table.

D = 5′6″, 6′0″, 6′6″, 7′0″, 7′6″, 8′0″, 8′6″, 9′0″, 9′6″, 10′0″, 10′6″, 11′0″, 11′6″, 12′0″, 12′6″, 13′0″, 13′6″, 14′0″.

L = 55′, 60′, 65′, 70′, 75′ 80′, 85′. 90′, 95′, 100′, 105′, 110′, 115′, 120′, 125′, 130′, 135′, 140′.

Where D=Depth.
L=Length.
F=Freeboard for decked boats or flats of iron or steel.
F2=Freeboard for open boats or flats or iron or steel.
C=Correction for every 10 feet in length.

For all classes of wooden boats and flats, both square built and country built, also composite boats and flats, the freeboard shall be calculated at the rate of 3 inches for every foot depth of hold up to 10 feet.

Whenever a boat is licensed to carry boat passengers and cargo, she shall be measured and marked with a load line in the same way as though she were intended solely for the carriage of cargo.

69. To ascertain the number of the passengers that a passenger boat may carry, divide the superficial area in square feet of the floor space available for passengers by 6 and the result is the number of passengers that the boat may be licensed to carry.

Rules for the measurement of passenger boats.—In the case of boats belonging to private firms or companies and used exclusively for the conveyance of their own employees to and from their works, the divisor shall be 4 instead of 6.

Whenever a boat is licensed to carry both passengers and cargo the total load shall be such that the load line marked on the boat is not submerged.

GOVERNMENT OF BENGAL.

Political Department.

Political.

NOTIFICATIONS.

No. 18604P. —2nd December 1933.—In exercise of the powers conferred by sub-section (*1*) of section 7, sections 10 and 12, sub-section (*2*) of section 14 and section 22 of the Port Haj Committees Act, 1932 (XX of 1932), the Governor in Council is pleased to make the following rules, namely—

Rules.

1. These rules may be called the Calcutta Port Haj Committee Rules, 1933.

2. In these rules unless there is anything repugnant to the subject or context—

(*i*) "The Act" means the Port Haj Committees Act, 1932.

(*ii*) "Candidate" means any person who has been duly proposed and seconded for a seat on the Committee.

(*iii*) "Committee" means the Port Haj Committee of Calcutta constituted under the Act.

(*iv*) "Counting of votes" includes all operations involved in the counting of votes at an election of the Committee.

(*v*) "Election" means an election held under the

Part I—Rules under section 7.

3. Electoral roll for the Calcutta Corporation constituency under clause (*b*) of sub-section (*1*) of section 4 of the Act shall be prepared and maintained by the Chief Executive Officer, Calcutta Corporation, who shall also act as the Returning Officer of this constituency.

Electoral roll for the general constituency under clause (*c*) of the said sub-section of the Act shall be prepared and maintained by the Registrar, Political Department, who shall also act as the Returning Officer of this constituency.

4. Any person may be nominated as a candidate for election subject to rules made under clause (*a*) of section 10 of the Act.

5. The Local Government shall appoint for each constituency a date for the nomination of candidates and shall publish such date in the *Calcutta Gazette*.

6. On or before the date so appointed for the nomination of candidates, each candidate shall either in person or by his proposer and seconder together, between the hours of 11 o'clock in the forenoon and 3 o'clock in the afternoon deliver to the Returning Officer a nomination paper completed in the form annexed to these rules and subscribed by the candidate himself as assenting to the nomination and by two persons as proposer and seconder whose names are registered on the electoral roll of the constituency.

7. The Local Government shall appoint a date for the scrutiny of nomination and on such date the Returning Officer shall give to the candidates or their representatives all reasonable facilities for examining the nomination papers of all candidates. The Returning Officer shall then examine the nomination papers and shall decide all objections which may be made to any nomination and prepare a list of valid nominations.

8. (*1*) If the number of duly nominated candidates is not greater than the number of vacancies, all such candidates shall be declared to be duly elected.

(*2*) If the number of duly nominated candidates is greater than the number of vacancies, a poll shall be taken and the Returning Officer shall, on or before the date fixed in this behalf by the Local Government, send by registered post to each elector a ballot paper, in the form annexed to these rules, together with an intimation of the date appointed by him for the counting of votes and shall enter on the counterfoil of each ballot paper the name of the elector to whom the ballot paper is sent.

9. An elector shall obtain the attestation of his signature, but not of his vote, by a Magistrate, exercising first class powers, or a Justice of the Peace or any head of a department under Government to whom he is personally known, or to whose satisfaction he has been identified. He shall then return his ballot paper to the Returning Officer after recording his vote thereon in accordance with the instructions on the ballot paper. The ballot papers which are not received by the Returning Officer before 5 p.m. on the day preceding the day fixed for the counting of votes shall be rejected.

10. The Returning Officer shall appoint a date, time and place for the counting of votes and shall give notice thereof in writing to the candidates. On the day and at the time and place so appointed he shall—

(*a*) after scrutiny, separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "rejected" and the ground of rejection;

(*b*) count the votes given to each candidate, and declare the candidate or candidates with the largest number of valid votes to be elected.

11. Where on the counting of votes under rule 10, an equality of votes is found to exist between any candidates and the addition of one vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

12. Upon the completion of the counting of votes, the Returning Officer shall prepare and certify a return setting forth—

(*i*) the number of valid votes given for each candidate;

(*ii*) the number of votes declared invalid and rejected;

(*iii*) the names of the persons declared elected;

and submit the return to the Government of Bengal in the Political Department.

13. (*1*) If any person is elected by more than one constituency, he shall by notice in writing signed by him and delivered to the Returning Officers of both the constituencies within two days from the date of declaration of the result of such election, choose for which of these constituencies he shall serve and the choice shall be conclusive.

(*2*) When any choice for any constituency has been made, his election by the other constituency shall become void and the Returning Officer of this latter constituency shall then in the place of such candidate declare duly elected the candidate who has secured the largest number of valid votes among the candidates who has failed to secure the election and if there be no such candidate to be declared elected, the Local Government shall call the constituency to elect another person.

(*3*) If the candidate does not make the choice referred to in sub-rule (*1*) of this rule, the election of such person shall be void and the Returning Officer of each of those constituencies shall in the place of such candidate declare duly elected the candidate who has secured the largest number of valid votes among the candidates who has failed to secure the election and if there be no such candidate or candidates to be declared elected, the Local Government shall call upon the constituency or constituencies concerned to elect another person or persons.

14. The elected members shall co-opt at a meeting four members preferably from among the elected Muslim members of the district boards in Bengal subject to the rules framed under clause (*a*) of section 10 of the Act.

Part II—Rules under section 10.

15. A person shall not be eligible for election, co-option or nomination as a member of the Port Haj Committee in Calcutta if such person—

(*a*) is not a British subject; or

(*b*) is under 30 years of age; or

(*c*) is an undischarged insolvent; or

(*d*) has been adjudged by a competent court to be of unsound mind; or

(*e*) having been a Government servant has been dismissed or is under suspension; or

(*f*) having been a legal practitioner has been dismissed or is under suspension from practising as such by order of any competent court; or

(*g*) has undergone imprisonment for an offence which in the opinion of the Local Government involves moral turpitude.

16. If any doubt or dispute arises as to the election and co-option of members the matter shall be referred to the Local Government whose decision shall be final.

17. (*1*) A nominated member may resign by notifying in writing his intention to do so to the Local Government and on such resignation being accepted shall be deemed to have vacated his office.

(*2*) An elected or co-opted member may resign by notifying in writing his intention to do so to the Chairman who shall forthwith lay such notice before the Committee at the meeting and on such resignation being accepted by the Committee at a meeting, he shall be deemed to have vacated his office.

18. (*1*) The Local Government may remove an elected or co-opted member on the ground of misconduct in the discharge of his duties if the removal is recommended by a resolution of the Committee passed at a special meeting called for the purpose and supported by the votes of two-thirds of the members of the Committee.

(2) The Local Government may remove any member—

(i) if he refuses to act or becomes incapable of acting or is declared insolvent or if after his election as member, he is convicted of an offence which in the opinion of the Local Government involves moral turpitude; or

(ii) if he absents himself from three consecutive meetings of the Committee except on account of illness or any other cause approved by the Committee and the Government; or

(iii) if he is considered to be unsuitable in the opinion of the Local Government.

19. If any nominated, elected or co-opted member is, by reason of his death, resignation or removal, unable to complete his full term of office the vacancy so caused shall be filled by the nomination, election or co-option of another person as the case may be. The person so nominated, elected or co-opted shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

Part III—Rules under section 12.

20. The term of office of the Chairman shall be for a period of three years from the date of his election and such term shall be held to include any period which may elapse between the expiry of the said three years and the date of the first meeting of the newly formed Committee held under the provisions of sub-section (1) of section 11 of the Act.

21. Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 4076L.C.—5th December, 1933.—The following report of the Select Committee on the Bengal Cess (Amendment) Bill, 1933, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Cess (Amendment) Bill, 1933.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Cess (Amendment) Bill, 1933, was referred by a motion carried in the Bengal Legislative Council on the 16th August, 1933, have the honour to submit this our report with the Bill as amended by us annexed. All matter omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter inserted has been underlined.

The Bill was published in English in the *Calcutta Gazette* of the 27th July, 1933.

2. We do not consider that the Bill has been so altered as to require republication.

3. The Committee met for the first time at Darjeeling on the 9th October, 1933, and concluded its sittings on the 14th idem.

4. The changes made in the Bill are as detailed below :—

Clause 2.—We have omitted this clause as being unnecessary.

Clause 3.—We have made certain drafting changes in this clause which have been necessitated by the omission of clause 2.

Clause 5.—We have omitted this clause as being no longer applicable in view of certain changes made in proposed Chapter VIIA.

Clause 6.—We have omitted proposed section 45 (*1*) and inserted a new sub-section in its place extending the benefits of the rebate to tenure-holders and to cultivating *raiyats*, provided that the annual cess payable amounts to fifty rupees or more.

In proposed section 45 (*2*) we have increased the period within which payments of road cess or public works cess can be made to the Collector without penalty from fifteen days to thirty days from the date on which the same becomes due.

Clause 8.—In proposed section 51A (*2*) we have inserted a limit within which a demand for information asked for in proposed section 51A (*1*) shall be complied with.

Clause 11.—We have omitted clause 11 (*c*) as being unnecessary and made consequential drafting alterations in clauses (*c*) and (*d*).

Clause 14—Chapter VIIA.—We have made a drafting alteration in the heading of this new chapter.

Proposed section 107A.—We have substituted a new proviso for the proviso in proposed section 107A (*1*) of the Bill as introduced providing—

(*1*) in the case of a valuation or revaluation made under the provisions of new Chapter VIIA that it should not take effect till 10 years after the last valuation or revaluation under the chapter;

(*2*) in the case of a valuation or revaluation not made under the provisions of the new Chapter VIIA, then not before the expiration of five years from the date of such valuation or revaluation.

Proposed section 107B.—We have made certain drafting alterations in the definition of "acreage rate" in proposed section 107B (*1*).

A clerical mistake has been corrected in proposed section 107B (*7*) (*ii*).

We have added a definition of "farmer of an estate" in proposed section 107B (*8A*) as being necessary.

In the *Explanation* to the definition of "rent" in proposed section 107B (*11*) we have increased the period from three years to five years.

Proposed section 107C.—The important changes made in this section are as follows:—

(*1*) In proposed section 107C(*2*)(*b*)(*i*) we have omitted "forests" from the lands which shall be cess-free under that section and have, by the insertion of section 107C(*3*)(*iii*), left them to be dealt with under Chapter V.

(*2*) We have inserted "unculturable" before "*bil*" in proposed section 107C(*2*)(*b*)(*i*) to make the meaning clearer.

The other changes made in the proposed section are of a drafting character.

Proposed section 107D.—We have, by a majority, reduced the maximum acreage rate from one-fifth to one-sixth of the gross produce per acre.

In proposed section 107D(*2*)(*iii*) we have increased the period from "three" to "five" years.

By the insertion of proposed section 107D(*2*)(*b*) we have also, by a majority, restricted the acreage rate to a figure which shall not increase the total cess demand in a district by more than 20 per cent.

In proposed section 107D(*4*) we have increased the figure of the acreage rate of certain lands referred to in the sub-section from ten to twenty rupees per acre.

The other minor changes are of a drafting character.

Proposed section 107E.—We have substituted for clauses 107E(*1*)(*a*) and (*b*) new clauses which limit the discretion of the Collector, in determining the cess-free lands referred to in the latter part of clause (*a*) and in clause (*b*) to lands and classes of lands which he considers to consist of unculturable waste. We have also removed the obligation to prepare a list under clause (*b*) in respect of every village. "Forests" have been omitted from the section to be left to be dealt with under Chapter V.

Proposed section 107F.—We have re-drafted proposed section 107F(*1*) so as to provide that the Collector shall give his reasons for his proposals specified under clauses (*a*), (*b*) and (*c*), and not only in regard to (*b*). Whether the reasons are to be at length or otherwise, we have left to the discretion of the Collector.

The changes made in proposed section 107F(*2*) are more or less of a drafting character.

Proposed section 107G.—We have re-drafted proposed section 107G(*2*) to make the intention more clear.

A clerical mistake has been corrected by the substitution of the word "cess" for "rent".

Proposed section 107-I.—The changes made in this section are mainly of a drafting or consequential character.

Proposed section 107J.—Two slight drafting changes have been made in proposed section 107J(*1*) and (2), second paragraph.

Proposed section 107-O.—The changes made in this section, in sub-sections (*3*) and (*4*) are of a drafting character to make the intention more clear.

Proposed section 107R.—Owing to the great importance we attach to the rules to be made under proposed section 107R(*1*)(*h*), we have inserted a proviso that these rules shall be made subject to the condition of previous publication.

Proposed section 107S.—We have added two new clauses (*c*) and (*d*) as being necessary. The other changes are of a purely drafting character.

N.B.—The signatures of Khan Bahadur M. Azizul Haque, M.L.C. and Mr. A. K. Fazlul Huq, M.L.C., had not been received up to the time of printing this report.

Joint minute of dissent by the Hon'ble Sir P. C. Mitter, K.C.S.I., C.I.E., Mr. H. C. V. Philpot, Mr. W. H. Nelson, Mr. J. B. Kindersley and Rai Mahendra Nath Gupta Bahadur.

Clause 14: Proposed section 107A (1), provisos (i) and (ii).—We would prefer to retain the period of 5 years in both cases. If, however, the Council decides against the amendment suggested by a majority of the members of the Select Committee in proposed section 107D (*2*) (*b*), we would not object to the amendment contained in the provisos to section 107A (*1*).

Proposed section 107D(2) (a).—We are opposed to the reduction of the maximum from 1/5th to 1/6th. The maximum must be one which is applicable to every district in which the new Chapter VIIA will be in force. In some of the less fertile districts a maximum of 1/6th may have the result of limiting the cess demand to a figure which is lower than the existing cess demand even though in that particular district the cess demand is not too high.

Proposed section 107D(2)(b).—We are also opposed to the limitation of the increase of the cess demand of a district at any revaluation to 20 per cent. more especially if the next revaluation cannot take place for 10 years.

Minute of dissent by Mr. W. H. Thompson, M.L.C.

Clause 6.—There is no justification for such a rebate except as a business proposition. It should be offered only to such an extent as is justified by the advantage which will be obtained through making collection expeditious. Five per cent. is too much to give away especially when times are not as hard as at present. I would prefer to frame the clause to give the Collector, with the sanction of the Local Government, power to offer such rebate for such time and at such rate, not being more than 5 per cent., as he may think fit.

Clause 14: Proposed section 107D (2) (b).—Some districts are economically progressive, others are not. If the economic progress of a district is such that it can afford to bear an increased road cess, it should be permitted to have the additional amenities which the correspondingly increased expenditure by the District Board will provide. It is, therefore, a mistake to place an arbitrary limit of 20 per cent. on the permissible increase of road cess at a revaluation.

There is a much stronger objection to the application of this 20 per cent. limit to the next revaluation in Burdwan, Hooghly, Howrah, 24-Parganas, Rangpur and Dinajpur where the existing valuation is based on returns which will certainly prove to have been incomplete.

Proposed section 107E.—The modification of sub-section (*1*) (*b*) is an improvement, but I think the retention of this clause, even as it stands, will defeat the object of the Committee, which was to make it easy for a Collector to exclude types of unprofitable waste land, not recorded as individual classes in the record-of-rights, without rendering him liable to be flooded with applications for exclusion of odd pieces of land which he could not deal with except by local enquiries. One acquainted with the Rajshahi district, for example, acting on an instruction from the Collector, could quite easily pick out the old useless tanks on the village maps without local enquiry recognising them by their having no *bustees* round them, by their being orientated and oblong instead of square, and by the wideness of the banks. A much more practically useful clause than clause (*b*) would be:—

"When it appears to a Collector that there is a type or types of uncultured waste land in the district or in part of the district not recorded as a separate class in the settlement record which should in his opinion be cess-free, he may prepare a list of plots of such type or types and the plots in the list shall be cess-free."

Proposed section 107-I (1) (c).—There are very few transfers of land from one tenure to another, and as mutations are not difficult to follow, there will be little difficulty in putting the statements into the hands of the persons interested, but, in the case of *raiyati* and under-*raiyati* holdings, a few years after the record is complete it is found that transfers and mutations are innumerable. The law should be made clear that it is not the Collector's duty to take any cognizance of such changes in the case of *raiyati* holdings, and I would, therefore, prefer to leave clause (*c*) as it was and add after (*c*) a separate clause (*d*) to the section as follows:—

"(*d*) In respect of every *raiyati* and under-*rayati* interest, entered in the record-of-rights a postcard or other notice stating the annual value of the lands shown in the record as appertaining to such interest and addressed to the person named in the record as the possessor of that interest."

Minute of dissent of Raja Bhupendra Narayan Sinha of Nashipur, M.L.C.

Clause 6.—In the original Bill the rebate of 5 per cent. had been proposed to be allowed only to the holders or farmers of an estate directly held under the Government. That is, only the *zamindars* are to enjoy this concession.

The Select Committee has modified the clause by allowing this privilege to all grades of persons paying cess. This is an improvement and is welcomed by all. But having regard to the fact that this concession has been extended to the tenants as well, it will not be much appreciated by them unless the rate of rebate be increased. The tenants' share of cess is invariably very low, and if 5 per cent. rebate be granted, they will be tempted to avail themselves of this opportunity. The object of this clause will be frustrated. The main object is to encourage punctual payment by granting rebate. If the sum is not a much appreciable amount, naturally, no one will be allured to get the full benefit.

Further, on the *zamindars'* point of view, I beg to say that as the law stands, the *zamindars* have to pay cess almost a month in advance even if the payment by the tenants be punctually made. By way of illustration, I beg to point out that the first date for the payment of cess after the valuation or revaluation is on the 28th June corresponding to 12th *Asharh;* whereas the first payment of cess by a tenure-holder or a tenant is on the 1st *Shravan*. Thus there is a difference of 18 or 19 days. In addition, it takes at least 10 days for the *mufassal kutchary* to make over the collection to the Sadar for manifold reasons. Thus, even if the punctual payment be made by the tenants, the *zamindars* have to pay in one month in advance. Thus, they have to suffer with respect to interest automatically for a month. So by way of collection charges the *zamindar* can claim the usual rate allowed by the Court.

Moreover, there are bad debts which are never realised, even through the help of the Court, and this is about 20 per cent. approximately. It will be a sheer injustice if the landlords have to suffer for the debts of the others. Considering all these circumstances, I propose that 12½ per cent. rebate be allowed.

Clause 8.—The object of this clause, as stated by the Hon'ble Member-in-charge, is to ascertain the particulars of the rent-free holders, especially their addresses, so as to facilitate the collection of the cesses. With this object in view, it has been proposed that the rent-free holders will furnish the particulars on receiving the demand notices, failing which they will be penalised. But in practice it has been found that even where the record-of-rights has been completed, the addresses of rent-free holders cannot be found even if the addresses are written according to the settlement record.

Thus, unless the proper addresses be ascertained, the object of this clause will be frustrated, as it will be impossible to send the notices of demand. There will be unnecessary trouble and labour on the part of the Collectorate to issue demand notices without proper addresses which will be undelivered and returned back invariably. The work of the Collectorate will be hampered and increased for nothing and no effective purpose will be served.

I, therefore, suggest a clause be added after the words "to give" in the proposed section 51A, *e.g.*, "within three months from the date of the publication of this Act in the *Calcutta Gazette* or within three months from the date of any subsequent changes and." This will simplify the matter. The tenants will have no fear of a demand notice or of being penalised in future, as they will know beforehand what they will have to do. There will practically be no occasion to send demand notices or to penalise the rent-free holders. At the same time the main object of this clause will be secured fully.

Further, I may add that a similar provision to notify any changes in the proprietary right of a land is provided in the Land Registration Act.

Clause 14: Proposed section 107D (2) (b).—I would suggest that in case where the revaluation has been made after the record-of-rights, the increment should not be more than 10 per cent. of the existing total assessment. But where the valuation has not been done after the record-of-rights, I do not like to make any restriction.

My reason for this suggestion is that it is found invariably that where the valuation had been made after the record-of-rights, the increment was more than 50 per cent. of the previous assessment. If the limit of 20 per cent. increment be provided, it will be too hard for the rate-payers.

Minute of dissent by Khan Bahadur Maulvi Alimuzzaman Chaudhuri, M.L.C.

Clause 6.—I am not in favour of granting rebate. It will not give any appreciable benefit to the revenue-paying or rent-paying interests; at the same time the income of district boards will be crippled. It also gives a preferential treatment to a certain class of interests only. It was found that the provisions could not be extended in general as it will not be practicable. This clause should have been omitted.

Joint minute of dissent by Mr. Sarat Kumar Roy, M.L.C., and Mr. Saileswar Singh Roy, M.L.C.

With regard to clause 6, proposed section 45 (*1*), we feel that the percentage of rebate as suggested in the report of the Select Committee is much too small to prove any effective incentive to regular payment of cesses or to cover the loss which the landlords generally incur on account of want of realisation of cesses in time. On these two grounds we press for rebate of 15 per cent. but by way of compromise we now propose 12½ per cent. of which half may be payable to the tenants. We hope that it would be acceptable to the House.

Minute of dissent by Babu Satish Chandra Ray Chaudhury, M.L.C.

I sign the report subject to this note of dissent:—

The Select Committee have extended the benefit of the rebate system to every grade of cess-payers, but at the same time have fixed a minimum cess payable for each estate, tenure or interest to entitle the holder to the benefit of the rebate. This will disentitle a landholder who may have to pay in the aggregate cess much above the minimum but who pays less than the minimum for each estate held by him. Such landholders would now get nothing for their trouble. The Select Committee amendment has made their case worse. As for the tenants, the benefit assured to them is quite illusory, as few tenants in each estate pay Rs. 50 as cess for a single holding. I would, therefore, either do away with the minimum altogether, restoring the principle in the original Bill, or make the benefit of the rebate available to all who in the aggregate pay a minimum cess of Rs. 20 for all their estates, tenures or holdings as the case may be.

Clause 14: Proposed section 107D(1).—The intention underlying this clause seems to be to make the units as large as possible, as the Collector has been given a discretion as to whether a district should be divided into units or not. This will defeat the main avowed object of the Bill which is to remove inequalities in taxation between tenant and tenant or between a tenant and his under-tenant. If the units are made too large embracing several fields or thanas without regard being had to the character and classification of the lands comprised in the same, the average valuation and rate based on the same will result in grave and serious prejudice to the holders of lands of inferior quality, thus introducing an element of grave inequality. So long as a man holds all classes of land or the best classes only, he will have little cause of complaint, but there are many fairly big areas where the lands are of such inferior quality that the holders must need suffer if they are to pay according to a calculation arrived at by working an average with the best lands of the neighbourhood. Some hardship and injustice may be inevitable, but any injustice on a wide scale is very much to be deprecated. I would, therefore, make the division of the district into suitable units obligatory and would make the units ordinarily correspond with the areas of the union boards, special cases requiring special treatment.

In proposed section 107D(*2*)(*ii*) and (*iii*) for "agricultural produce generally" and "all agricultural produce" I think "staple food crops" should be substituted to simplify investigation and to avoid unnecessary harassment. Nowadays, whenever there is a rise in the price of one agricultural produce, *e.g.*, jute, there is a corresponding rise in the price of others. Besides, there is much less fluctuation in the price of paddy from year to year than in the case of a commercial crop like jute. So this should be taken as the standard for the purpose of valuation of lands.

In proposed section 107E(*1*)(*b*), the proviso restricts the discretion of the Collector too much, leaving no remedy for cases in which large areas have been rendered more or less valueless since the last record-of-rights operation, owing to natural or other causes, and yields little or no profit after meeting the expenses of cultivation, although they cannot be called unculturable waste in the true sense of the words. As the proposed method of assessment means a direct levy on the land, every circumstance relating to the capacity of the lands to pay should be taken into consideration.

A definite period of publication should be provided for the proposed section 107F to enable objections to be made in the first instance to the Collector before he makes his order final.

Lastly, I think a 10 per cent. increase of income should be the maximum limit to be reached in any revaluation in those districts where there has been a revaluation after the record-of-rights.

Minute of dissent by Maulvi Tamizuddin Khan, M.L.C.

I differ from the majority of the members of the Select Committee on one fundamental point. The Bill if passed into law will be yet another anti-tenant measure on the statute book, and in its operation will do great injustice to an overwhelming number of the breadwinners of this province.

The main object of this measure is said to be the introduction of a more equitable principle of assessment of cess than what is in vogue at present. This object will never be achieved except within a narrow circle, if at all. As far as the relative liability of the landlord and the tenant is concerned, the measure far from bringing about an equitable adjustment will not only perpetuate the existing inequity, but what is worse, will deprive the cultivating *raiyats* of the little privilege they enjoy under the present law. Section 41 of the present Cess Act lays down the relative liabilities of *zamindars* (holders of estates), tenure-holders and cultivating *raiyats* (*raiyats* who cultivate their own lands and have not sublet the same) as regards the payment of cess. Assessment is made on the "annual value" of the lands at a rate not exceeding one anna per rupee. At present the full rate of one anna is levied in all the districts. "Annual value" is defined as follows in section 4 of the Act: "'Annual value of any land, estate or tenure' means the total rent which is payable, or if no rent is actually payable, would, on a reasonable assessment, be payable, during the year by all the cultivating *raiyats* of such land, estate or tenure or by other persons in the actual use and occupation thereof." To illustrate the system of assessment now in vogue under the present law, let me take a very simple case of a *zamindar* whose estate consists of 4 acres of land which he has entirely let out to cultivating *raiyats* at a total rent of Rs. 12 and there is no subletting by these *raiyats* to under-*raiyats*. The total cess payable by this estate is (12 × 1 anna) 12 annas of which the *raiyats* have to pay half, *i.e.*, 6 annas, and the landlord has to pay the remaining half if his estate is revenue-free. If he pays a revenue, his share of cess is a little reduced, as he is entitled in that case to a deduction to be calculated at the rate of half an anna (½ anna of the rate at which the cess is levied in the district in question) per rupee of revenue that he pays. Now if the *zamindar* in this case pays a revenue of Rs. 3, he has to pay (6 annas—3 × ½ annas) 4½ annas as his share of the cess. The *raiyat's* share, however, remains 6 annas as above, *i.e.*, half of the total maximum cess (annas 12) leviable on this estate. This is exactly what is laid down in section 41(3) of the Cess Act which runs as follows: "Every cultivating *raiyat* shall pay to the person to whom his rent is payable *one half* of the said road cess and public works cess calculated at the said rate or rates respectively (*i.e.*, the rate or rates which may have been determined for the year in question, such rate being now determined in all districts at the maximum rate of one anna per rupee) upon the rent payable by him or upon the annual value ascertained under the provisions of section 24 or 25 of the land held by him." In the case of cultivating *raiyats* who have not sublet their holdings, the provisions of sections 24 and 25 are seldom applied. So the present law is that the cultivating *raiyats* have to pay one half of the total cess and no more. The proposed legislation is taking away this safeguard of the cultivating *raiyats*, because there is no provision in the Bill limiting the cess to be paid by cultivating *raiyats* to any particular proportion, and it is apparent that under the scheme contemplated in the Bill the burden on the shoulders of this class of *raiyats* will be tremendously increased. The *raiyats* who will be thus adversely affected are mostly occupancy *raiyats* who cultivate their lands themselves and have not sublet their holdings to under-*raiyats*. They are the pick of the tenantry of this province, and it will be highly regrettable if the already heavy burden on their shoulders is unduly increased.

This legislation will give no relief to the tenantry as a whole. It will simply lighten the burden on the shoulders of certain classes of tenants, *viz.*, under-*raiyats* and "cess-tenure holders" (*raiyats* who have sublet their holdings and are treated as tenure-holders by the administrators of the Cess Act), but it will do so by transferring that burden entirely to the shoulders of cultivating *raiyats*. Again, at each revaluation whatever increase in the total cess demand of a district or unit of a district is made will almost wholly fall on the shoulders of this class.

The scheme proposed is this: An acreage rate will be determined by the Collector for a district or part of a district and according to the decision of the Select Committee, such rate may extend up to one-sixth of the value of the gross produce per acre of ordinary agricultural land in the area. The annual value of a land will be the acreage rate multiplied by the area, and the cess will be levied at the rate of 2 pice (6 pies) per rupee in the maximum on such annual value. Now as regards the question of an estimate of the value of the average gross produce of the province let me quote a few lines from a note circulated to the members of the Council from the Revenue Department a few months ago. The note says: "From the statistics of 11 districts of which the final reports have been published, it appears that, to state generally, the average gross produce of cultivated lands is about Rs. 55 per acre, varying from Rs. 47 in Bankura to Rs. 75 in Noakhali."

I shall now try to illustrate by example the respective incidence of cess upon cultivating *raiyats* under the present system *vis-a-vis* the proposed system. Before I do this I would like to state that the total revenue paid by the *zamindars* of the province is said to be about 2 crores and 15 lakhs and the total rents collected by them as far as occupancy *raiyats* are concerned is said to be about 8½ crores of rupees. Therefore, for every rupee of revenue paid by a *zamindar* he gets Rs. 4 as rent from such *raiyats*. Again, it is stated in the note referred to above that "the average rate of rent of the *dejure* (Bengal Tenancy Act) *raiyat* is about Rs. 3 per acre." The example that I have already cited of a *zamindar* of 4 acres of land, paying a revenue of Rs. 3 and getting Rs. 12 as rent from his *raiyats* who cultivate their own lands, and have not sublet their holdings, is, therefore, a typical one. We have already seen

that the total cess to be paid according to the present system, by all the cultivating *raiyats* under this *zamindary* is 6 annas. Under the proposed scheme, taking the acreage rate to be Rs. 9 (⅙ of Rs. 54 which is taken to be the value of the average gross produce of an acre of land) the total cess payable from this estate will be (4 × 9 × ½ anna—3 × ½ anna) 16½ annas. Of this amount the *zamindar* will pay 4½ annas as under the present system and the remainder of 12 annas will have to be paid by the *raiyats*. That is, the *raiyat's* share will be double of what it is at present. Even if the acreage rate is fixed at Rs. 8, the total cess will be 14½ annas and the *raiyat's* share will be 10 annas. Taking the acreage rate to be as low as Rs. 7 which is an extremely unlikely figure, the *raiyat's* share will be 8 annas. These examples show to what extent the burden on the cultivating raiyats will increase under the system proposed to be introduced. This was frankly admitted in the abovementioned note of the Revenue Department. One of the alternative suggestions as to the future scheme of assessment was thus considered in the note: "(3) Take a uniform rate of 1½ pice per rupee of 'net profit' (acreage rate × area—revenue or rent) both for the cultivating *raiyats* and the landlords." Regarding this suggestion, the note said: "The objection to plan (3) is that it will involve a substantial increase of the burden of the cultivating *raiyats*." If a rate of 1½ pice per rupee on the net profit was then objectionable, one fails to understand how a rate of 2 pice per rupee now proposed has been acceptable.

The number of *raiyats* who will be thus adversely affected is by no means insignificant. From the statistics supplied to the members of the Select Committee from the department, it will be seen that the number of holdings of *raiyats* at fixed rates is about 8 lakhs and that of settled and occupancy *raiyats* is about 95 lakhs. Of these 103 lakhs, about 30 lakhs have been sublet to under-*raiyats* in part or whole. Deducting these 30 lakhs from the aforesaid 103 lakhs of holdings, we get 73 lakhs of holdings in respect of which there has been no sub-infeudation. The holders of these 73 lakhs of *raiyati* holdings will be adversely affected and in all likelihood the burden on their shoulders will be doubled. They are undoubtedly the flower of the Bengal tenantry and the treatment that is proposed to mete out to them will certainly bear its evil fruit. This is the most conscious and vocal class of tenants in the province. It is highly undesirable to poke them any further.

If this Bill is passed into law, it will most effectively stand in the way of whatever little chance yet remains, of enforcing the Rural Primary Education Act. If the cess burden of this class of tenants is now increased in the manner proposed, it will be unthinkable to impose another equally heavy burden on them under the Education Act. The Primary Education Act will be successfully strangulated if the proposed measure is passed into law.

There is another obvious and fundamental objection to the Bill. During the last 50 years the cess demand of the province has almost doubled. There is no doubt that the cess will go on increasing almost in every district at each new valuation. What justification is there that the burden of the increase will wholly fall on the shoulders of cultivators and that landlords will go entirely scot-free? It is glibly said that everyone is going to be assessed on his net profit. It is nothing but camouflage to say that the *zamindar's* net profit consists only of the difference between the rents that he receives and the revenue that he pays, as it is taken to be by the proposed enactment. The Bill altogether excludes from consideration all the other earnings of a *zamindar* in calculating his net profit.

Such an ill-conceived, unjust and inequitable measure does not deserve to be placed on the statute book.

I refrain from mentioning here the other objections I have to the majority report of the Select Committee, as my note of dissent has already become very lengthy. I reserve the right to mention these on appropriate occasions during the stages the Bill has yet to go through.

Minute of dissent by Mr. Mukunda Behary Mullick, M.L.C.

I sign the Report of the Select Committee subject to this note of dissent:—

I think that clause 6, proposed section 45 (*1*) should be deleted. The liability to pay cess is a statutory obligation for anyone holding cess-paying lands, and therefore I do not think that there ought to be a rebate granted to any of them. The reason applied to the rebate granted in some business concerns has no application to the case of cess. Moreover, the cess is the income of the district board; I think that the same ought not to be reduced in any way.

In clause 6, in proposed section 45(*2*) the period of limitation for the recovery of unrealised cesses ought to be three years and there is no reason to make it as long as six years.

Minute of dissent by Khan Bahadur Muhammad Abdul Momin, M.L.C.

It is apprehended that if the acreage rate be fixed on the basis of the value of all kinds of produce of the lands within a local area it will operate harshly on such tenants

who own only "*ek-fasli* lands" (the number of such being over 50 per cent. in all districts) also the ascertainment of value of each crop will be difficult and indefinite. I, therefore, suggest that the value of only staple food crops be taken as the basis irrespective of what the tenants actually grow. The agricultural prosperity or otherwise in Bengal is and has always been gauged in terms of paddy.

2. As it is likely that individual districts or cases when rents are low the cess calculated on the acreage rate will go up considerably, there ought to be a safeguard that no "individual tenant's cess should go up by more than 10 per cent. over his present cess."

3. I am opposed to the proposed system of payment of rebate. It is against the principle of payment of all existing public demands and in the case of cess will lead to unnecessary complication without serving any useful purpose.

Minute of dissent by Mr. N. K. Basu, M.L.C.

I dissent from the proposed changes in clause 6, proposed section 45(*1*) and clause 14, proposed section 107D(*2*)(*b*). I reserve my reasons for the Council.

Minute of dissent by Rai Sahib Panchanan Barma, M.B.E., M.L.C.

Clause 6: Rebate.—In the original Bill, rebate was proposed to be granted to the owners of estates only. But the Select Committee extended the grant of rebate to the owners of estates or tenures and to the cultivating *raiyats;* the principle on which the rebate is based being to induce payment of the instalment of cess on or before the due date which is applicable to all the cases.

I think, in the proviso (*a*) to the proposed section 45(*1*) the phrase "at one time" should be omitted. The question that matters is that the instalment is paid "on or before the due date." That condition being fulfilled, it is immaterial whether the instalment is paid at one time or more, rather it will give facility for payment to the payer, if he be allowed to pay at more than one time.

Proviso (*b*) to the proposed section 45(*1*) puts great restriction on the title to get rebates. It provides that a cess-payer liable to pay an annual cess amounting to less than Rs. 50 is not entitled to get any rebate.

Now let us see the effect of this proviso on the holder of an estate, a tenure or a cultivating *raiyati* holding. How are any of them going to be benefited? According to the proviso to proposed section 107H(*1*) the cesses, *i.e.*, road cess and public work cess, shall be levied so as not to exceed the rate of one-quarter anna on each rupee of the annual value determined, that is, the rate of the two cesses taken together shall not exceed half anna on each rupee of the annual value.

Now what shall have to be the "annual value" of an estate or a tenure or a cultivating *raiyati* holding to be liable to pay an annual cess amounting to Rs. 50? I take the rate to be not less than two pice per rupee.

To secure a cess of one rupee, the annual value of an estate or a tenure or a cultivating *raiyati* holding shall have to be Rs. 32 and to secure an annual cess of Rs. 50, the annual value shall have to be Rs. $32 \times 50 = 1,600$. A rate less than two pice will require an annual value greater than Rs. 1,600.

Taking cultivating *raiyati* holding first, this annual value of Rs. 1,600 is to be one-sixth of the gross produce of the holding according to proposed section 107D(*2*)(*a*). This means that a *raiyati* holding to be entitled to get any rebate shall have to yield a gross produce of Rs. $1,600 \times 6 = 9,600$. But no cultivating *raiyati* holding whether of one hundred or more standard *bighas* can be expected to produce so much, even though the agricultural products sell at very high rate.

Considering all these, I think that if any rebate is intended actually to be given to the cultivating *raiyats*, the amount of annual cess entitling a cultivating *raiyat* to get rebate should be reduced to at least Rs. 10.

Then taking an estate or a tenure. The annual cess of Rs. 1,600 which entitles the owner to a rebate shall in these cases have to be composed of—

(*i*) cess on his profit as landlord,

(*ii*) cess realised from his tenants, and

(*iii*) cess on the annual value of the lands under his own cultivation—that is, one-sixth of the gross produce of such lands.

So the factors composing the annual value are of three kinds and each of them may vary to different qualities. So it is difficult, except in an actual case, to make estimate of the different factors. But it is certain that a large number of owners of estates or tenures will by operation of this restriction clause be excluded from getting rebate.

Here attention is drawn to the question whether 5 per cent. rebate will suffice to create the intended inducement.

Now apart from the question of inducement for payment, the owners of estates and tenure raise the question of (*i*) their labour for collection, and (*ii*) the risk of non-realisation of cesses in some cases from their tenants. It may be said, and it is a good maxim, that they should undertake the labour and the risk for the public good in which they themselves and their tenants also are to have some share. But besides labour, they have to suffer some loss or pay something from their pocket.

It may be said, and it is sometimes a hard fact, that the landlords realise much more than what is due in cess. For such excess realisation, they ought certainly to be punished; but to put it forth as an excuse for not recognizing their trouble is to give some sort of legal sanction to illegal exactions.

Now let us view the points of the landlords closely. The amount of cess they are required to pay are composed, as have already been pointed out, of three factors:—

(*i*) cess on his profit as landlord,

(*ii*) cess realised from his tenants, and

(*iii*) the cess on the annual value of the lands under his cultivation.

The amount of cess he is to pay for items (*i*) and (*ii*) are due directly from him and there is no question of his taking trouble or risk. The only question involved is the one of inducement of payment. The question of trouble and risk arises in connection with item (*ii*). Here he realises the cess from the cultivating *raiyats* or tenure-holders under him and he is to undertake some trouble for collection and risk in some cases of non-realisation.

Considering the public duty, an owner of an estate or tenure is to perform along with the trouble and risk he is to undertake in realising the cess from his tenants and paying them to the superior authorities, I would like to fix the rate of rebate at one anna and one pice per rupee, *i.e.*, Rs. 7-13 per cent. for that portion of cesses which the landlord pays on the collection from tenants under him, *i.e.*, for item (*ii*). But with respect to items (*i*) and (*iii*) the imposition is upon him personally and he is bound to pay. Taking all the facts into consideration, I think the rebate in the cess of the owners of estates or tenure should be 6¼ per cent.

In case of an hierarchy of owners between an estate and tenures under him question has not been considered. The question should be considered. But a rebate of more than 6¼ per cent. on the original amount of cesses should not be allowed.

Clause 14: Proposed section 107D (2) (ii) (iii).—The term "agricultural produce" should be restricted to such produces as are mainly crops and of commercial value. There are many crops which are not taken notice of by *Grihasthas* when they are grown by their *adhiars*. These crops may have some local consumption, but they are not treated as something cultivated for purposes of getting money. Such crops have little or no commercial value. Such crops should be excluded from consideration.

Resolution on the question of creating an organisation for the study of economic problems affecting the province of Bengal.

GOVERNMENT OF BENGAL.

Commerce Department.

Commerce.

RESOLUTION No. 6159 Com.

Calcutta, the 1st December 1933.

The Government of Bengal for some time have had under consideration the question of creating an organisation for the study of economic problems affecting the province. In 1931 Sir Arthur Salter, who was then Director of the Economic and Financial Section of the Secretariat of the League of Nations, visited India and prepared a scheme for an Economic Advisory Organisation in India. He expressed the opinion that a more effective system of securing a place for non-official opinion among the elements from which Government policy is evolved should be devised, and he recommended that, in addition to a Central Economic Advisory Council, there should be an Economic Advisory Council in each province.

2. Up to the present various considerations, partly financial, have prevented the Local Government from taking action on Sir Arthur Salter's proposals; but the question of appointing a committee on the lines recommended by him has recently been revived by the local Chambers of Commerce, and after full consideration of their views the Provincial Government have come to the conclusion that, in spite of financial stringency, the time has now arrived when special machinery should be set up to facilitate co-operation between Government and representatives of outside opinion in the study of the economic problems affecting Bengal. They have therefore decided to constitute a Board of Economic Enquiry.

3. The Board will be constituted as follows:—

(1) Chairman,

(2) to (7) Six representatives of commerce to be nominated by the following bodies:—

The Bengal Chamber of Commerce,
The Bengal National Chamber of Commerce,
The Indian Chamber of Commerce,
The Marwari Association,
The Muslim Chamber of Commerce, and
The Bengal Mahajan Sabha.

(8) and (9) Two representatives of the provincial universities—one to be nominated by the University of Calcutta and the other by the University of Dacca.

(10) and (11) Two representatives of agricultural interests.

(12) One representative of labour.

(13) and (14) Two non-officials interested in economic problems.

(15) The Director of Land Records.

(16) The Director of Agriculture.

(17) The Director of Industries.

(18) The Registrar of Co-operative Societies.

(19) The Senior Professor of Economics at the Presidency College.

(20) and (21) Two officials interested in economics and statistics.

Nos. 1, 10-14, 20 and 21 will be nominated by Government; Nos. 2 to 9 will be selected by the bodies named; and Nos. 15 to 19 will be members *ex-officio*.

4. The functions of the Board will be—

(*i*) to conduct enquiries into such economic matters as may be referred to it by the Local Government; and

(*ii*) to initiate and conduct, subject to the sanction of Government, enquiries into other economic matters (other than those referred to it by Government).

5. The Board will be provided with a Government officer as Secretary and it is proposed to place at its disposal a grant of Rs. 15,000 a year to cover expenditure on the enquiries it may be decided to undertake.

R. N. GILCHRIST,
Joint Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL.

Appointment Department.

CALCUTTA, THE 13TH DECEMBER 1933.

RESOLUTION—No. 12005A.

1. It is with feelings of profound regret that the Governor in Council records the death in Calcutta, on the morning of 11th December 1933, of the Hon'ble Sir William David Russell Prentice, K.C.I.E., C.S.I., I.C.S., Member of the Executive Council of the Governor of Bengal.

2. Born on the 5th September 1877, Sir William Prentice joined the Indian Civil Service on 23rd October 1901 and arrived in India on the 2nd December of that year. He started his official career as an Assistant Magistrate and Collector in the district of Patna and subsequently held charge of the subdivisions of Dinapur in Patna district and of Meherpur in Nadia district. In 1906 his services were placed at the disposal of the Government of India for employment in the Customs Department. He served as an Assistant Collector of Customs first at Calcutta and then at Rangoon, where he later officiated as Collector of Customs from 1908 to 1910. On 13th December 1911 he was appointed Magistrate from 8th March 1912 to 24th July 1915 he officiated as Magistrate and Collector of Hooghly. Thereafter he held charge successively of the districts of Murshidabad and the 24-Parganas, the former for about 18 months and the latter from April 1917 to September 1922.

3. In November 1923 his services were placed at the disposal of the Finance Department of the Government of India for employment as Commissioner of Income-tax for the Bengal Presidency, a post he held till 30th March 1926.

4. On 16th November 1926 Sir William became Chief Secretary to the Government of Bengal and he continued to hold that post until, on 29th April 1930, after two periods of service in temporary vacancies, he was appointed permanently a Member of the Executive Council, Bengal.

5. From the beginning of his service Sir William Prentice showed that he possessed the qualities which go to make a zealous and efficient administrator. An indefatigable and swift worker, painstaking in detail, conscientious and sound in judgment, he did not fail to fulfil that early promise. His services were recognised in 1926 by the conferment of a Companionship of the Order of the Indian Empire.

Star of India, and in 1933, only 6 months before his death, by his advancement to be a Knight Companion of the Indian Empire. Though he had spent a good many years of his service in specialised departments Sir William possessed a knowledge of rural conditions and of administrative problems which made him a valued source of information and guidance to Government in dealing with the administrative and political questions of the Province.

6. His industry was at once a revelation and an inspiration to those who had the privilege of working with him, and in moments of crisis he shouldered heavy responsibility with a quiet imperturbability which never failed to inspire confidence in those around him. The years 1930 to 1933 during which he was a permanent Member of Council were a period of continuous stress and strain which sometimes rose to a high pitch of intensity but his driving power never seemed to desert him and sudden demands on his knowledge and capacity only revealed fresh reserves of physical strength and intellectual power and a degree of courage and patience only possible in one who had the highest conception of duty. Criticism of his actions there inevitably was, and yet the very nature of much of his work did not permit the revelations or explanations to the public which might have removed the injustice of such misunderstanding or criticism. Sir William Prentice, however, never permitted criticism or misrepresentation to deflect him from those high standards of public service which he had set before himself and the part he played in the political development of Bengal no less than in the maintenance of law and order under circumstances of great difficulty and anxiety was of the utmost value to the Local Government. Sham and pretence he could not tolerate and he was not afraid to say so. But those who required advice or guidance never failed to obtain from him encouragement and wise counsel while his sense of justice was tempered by sympathy with inexperience and a keen appreciation of the failings of human nature.

7. In private life he was a cheerful companion to those about him, interested in many things, and the small circle who knew him intimately bore towards him feelings of profound affection. He was an enthusiastic Freemason, and did much on behalf of the lodges with which he was associated.

8. The Governor in Council mourns the loss of a colleague whose ripe experience, mature judgment and lofty ideals the Province can ill-afford to lose. To the relatives of the late Sir William the Governor in Council extends a sincere expression of his sympathy with them in a great and irreparable loss.

By order of the Governor in Council,

G. P. HOGG,

Chief Secy. to the Govt. of Bengal (offg.).

F. R. Appendix 16.

(See Chapter I, Section XIV, rule 40-D.)

Rules for the exhibition of losses in the Government Accounts.

Rules for the guidance of the Executive Officers.

1. *Budgeting.*—Provision for losses should not ordinarily be made in the budget. If, however, the nature of the work of a department is such that some losses must be regarded

as inevitable each year, provision may be made, with the special sanction of the Finance Department in each case.

II. *Report of losses.*—With the exception noted below, any defalcation or loss of public money, departmental revenue or receipts, stamps, opium, stores, or other property, discovered in a Government treasury or other office or department, which is under the audit of the Accountant-General, should be immediately reported to the Accountant-General, even when such loss has been made good by the person responsible for it. It will usually be sufficient if the officer reporting the defalcation or loss to higher authority sends to the Accountant-General either a copy of his report or such relevant extracts from it as are sufficient to explain the exact nature of the defalcation or loss and the circumstances which made it possible. When the matter has been fully investigated, a further and complete report should be submitted of the nature and extent of the loss, showing the errors or neglect of rules by which such loss was rendered possible, and the prospects of effecting a recovery. The submission of such report does not debar the local authorities from taking any further action which may be deemed necessary.

Exception.—Petty cases, that is cases involving losses not exceeding Rs. 200 each, need not be reported to the Accountant-General unless there are, in any case, important features which merit detailed investigation and consideration.

Note 1.—Losses or deficiencies concerning buildings, lands, stores and equipment should be written off any value or commercial account that may be maintained.

Note 2.—In the case of departments where accounts have been separated from audit, a special procedure for report of losses to Accounts and Audit Officers may be prescribed by departmental authority after consultation with the Auditor-General.

III. Heads of departments should submit annually to the principal auditors concerned statements showing the extra statutory remissions of revenue and abandonments of claims to revenue sanctioned during the preceding year. For inclusion in these statements, remissions and abandonments should be classified broadly with reference to the grounds on which they were sanctioned, and a total figure should be given for each class. A brief explanation of the circumstances leading to the remission should be added in the case of each class.

The statement shall not include individual remissions below Rs. 500, and it shall be submitted by the first week of June following the year to which they relate.

Note 1.—For the purposes of these rules a "statutory" remission or abandonment of revenue or a claim to revenue means a remission or abandonment which is obligatory under the provisions of any law or rule having the force of law. All other remissions or abandonments are non-statutory.

Note 2.—Where the administrative year does not coincide with the financial year, the figures of the former may, if this prove convenient to the departmental authorities, be given in the statements.

(*a*) If the licensees shall in the opinion of the Local Government have failed to give such immediate and full information as is required by clause 14 hereof or if at any time any interruption of the supply shall occur which in the opinion of the Local Government is attributable to any wilful or preventable default or neglect on the part of the licensees or if the licensees shall in the opinion of the Local Government, fail to comply with any of the provisions of the clauses of this license or shall in the opinion of the Local Government fail to show satisfactory progress during any

Legislative Department.

NOTIFICATION.

No. 1359L.—11th December, 1933.—His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information.

THE LICENSED WAREHOUSE AND FIRE-BRIGADE (AMENDMENT) BILL, 1933.

BILL

further to amend the Licensed Warehouse and Fire-Brigade Act 1893.

WHEREAS it is expedient further to amend the Licensed Warehouse and Fire-Brigade Act, 1893, in the manner hereinafter appearing ; Ben Act 1 of 1893.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Licensed Warehouse and Fire-Brigade (Amendment) Act, 1933.

Amendment of section 10 of Bengal Act 1 of 1893.

2. In the first proviso to section 10 of the Licensed Warehouse and Fire-Brigade Act, 1893, for the words " seven hundred and fifty rupees " the words " one thousand five hundred rupees " shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The intention of the framers of the Licensed Warehouse and Fire-Brigade Act, 1893, was that half the cost of the Fire-Brigade should be borne by the general tax-payers and the other half by the special interests protected by the brigade. The fees levied under the said Act have shown a progressive decline, although the cost of the Fire-Brigade has gone up and it has become apparent that until the maximum limit prescribed for license fees in section 10 of the Act is raised from seven hundred and fifty rupees to one thousand five hundred rupees it will not be possible to realise half the cost from such fees.

Indian Police Medal.

New Delhi, the 14th December 1933.

No. F. 114/39/33.—His Excellency the Viceroy and Governor-General of India has been pleased to confer the Indian Police Medal on the following officers:—

Bengal.

1. Probhakar Mukherji, Sub-Inspector of Police, Calcutta.—In July 1933, in Calcutta, this officer displayed courage and devotion to duty in facing, single-handed, a mob of 300 rioters, armed with daggers and lathis, who had already assaulted a small police party. When the Sub-Inspector arrived on the scene he also was attacked and in warding off a blow was stabbed in the wrist, his left hand being disabled as a result. Nevertheless, he stood his ground until reinforcements arrived.

2. Peter Greenhorn, Sergeant, Calcutta Police.—This officer displayed courage and initiative while taking part in a police raid on a gang of armed terrorists. The terrorists fired on and wounded one of the police party, but were eventually compelled to surrender.

3. Nabi Sher Khan, head constable, Bengal Police, 4. Sakir Khan, constable, Bengal Police, and 5. Ghandal Khan, constable, Bengal Police.—On the 2nd of September 1933, Mr. Burge, District Magistrate, Midnapore, was shot dead and his two assailants were at once tackled by Mr. Jones, Additional Superintendent of Police, and Inspector Smith. These two officers, both unarmed, were struggling on the ground with the armed assassins when head constable Nabi Sher Khan and constables Sakir Khan and Ghandal Khan, also unarmed, dashed to their assistance, displaying courage and commendable presence of mind at a critical moment.

N.B.—These awards are made for gallantry under regulation (*d*) (*i*) of the regulations governing the grant of the Indian Police Medal and consequently carry with them the special allowance admissible to officers of and below the rank of Inspector of Police.

PUBLIC SERVICE COMMISSION (INDIA).

Press communique.

Delhi, the 13th December 1933.

It has been repeatedly represented to the Public Service Commission that the dates fixed for the examination for admission to the Indian Military Academy in March-April each year coincide with those for certain University and other examinations; and that this inflicts hardship on candidates who wish to appear at both the Indian Military Academy and some other examination.

2. The governing factor in the fixation of dates is that the Indian Military Academy requires the batch of cadets which passes at the March-April examination each year to be ready for admission on the 24th August following. This necessitates the getting out of the results some two months before the above date, if a reasonable period of preparation is to be allowed to successful candidates and their parents. Even more time is required for the marking of papers and tabulation of results; further a concurrent examination for one or two candidates is held in London, their scripts being sent out to India for marking. Hence, the spring examination has to be completed by the 15th of April at the latest. In the candidates' own interests it would be better to hold it even earlier, since Delhi in the second half of April frequently becomes unpleasantly hot.

3. For the above reasons, it would be impracticable to change the time of the spring examination from that which has been fixed. The Public Service Commission, after a careful comparison of the various University Calendars, are in a position to say that, as far as the first 3 months of the year are concerned, it would be possible to suit the convenience of everyone only if no examination at all were held during these three months.

Secretary, Public Service Commission.

Amendment of section 3 of Act I of 1894.

3. For clause (*d*) of section 3 of the said Act, the following clause shall be substituted, namely :—

"(*d*) the expression "Court" means a principal Civil Court of original jurisdiction, and includes the Court of any Additional Judge, Subordinate Judge or Munsif whom the Local Government may appoint, by name or by virtue of his office, to perform, concurrently with any such principal Civil Court, all or any of the functions of the Court under this Act within any specified local limits and, in the case of a Munsif, up to the limits of the pecuniary jurisdiction with which he is vested under section 19 of the Bengal, Agra and Assam Civil Courts Act, 1887." XII of 1887.

STATEMENT OF OBJECTS AND REASONS.

The Civil Justice Committee in Chapter VII of their Report recommended the adoption of measures for affording some relief to District Judges in respect of their functions under the Land Acquisition Act, 1894. Difficulty has been experienced in giving effect to this recommendation owing to certain doubts that have arisen as to the correct interpretation of section 3(*d*) of the Act. This Bill has been framed in order to remove this difficulty.

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill* was introduced in the Legislative Assembly on the 21st November, 1933 :—

L. A. BILL NO. 47 OF 1933.

A Bill further to amend the Indian Tariff Act, 1894, the Indian Finance Act, 1931, and the Sea Customs Act, 1878, for certain purposes.

WHEREAS it is expedient further to amend the Indian Tariff Act, 1894, the Indian Finance Act, 1931, and the Sea Customs Act, 1878, for the purposes hereinafter appearing ; It is hereby enacted as follows :— VIII of 1894. VIII of 1878.

Short title.

1. This Act may be called the Indian Tariff (Second Amendment) Act, 1933.

Amendment of the Second Schedule, Act VIII of 1894.

2. (*1*) After Item No. 40A of the Second Schedule to the Indian Tariff Act, 1894, the following item shall be inserted, namely :— VIII of 1894.

"40B	MINERAL OIL, not included in Item No. 40 or Item No. 40A, which is suitable for use as an illuminant in wick lamps.	Imperial gallon.	Two annas and three pice."

(*2*) In sub-item (2) of Item No. 41 of the said Schedule, after the word "thermometer," the words "is not suitable for use as an illuminant in wick lamps," shall be inserted.

Amendment of the Second Schedule to the Indian Finance

3. After Item No. 40A of the Second Schedule to the Indian Finance Act, 1931, the following item shall be inserted, namely :—

ion of new n-195A in III of 1878

4. After section 195 of the Sea Customs Act, 1878, the following section shall be inserted, namely :— VIII of 1878.

"(1) When by any law for the time being in force a [illegible] imposed on mineral oil which is specified [illegible] not being suitable for use as an illuminant, the Chief Customs Authority may make [illegible] ing in disputed cases whether any mineral [illegible] uitable for such use.

(2) In particular such rules may—

(a) specify the design, construction and materials of test lamps to be used for testing the burning properties of mineral oil in wick lamps and provide for the standardisation of such test lamps ; and

(b) prescribe the manner in which and the persons by whom tests are to be carried out and the standards to be accepted for deciding whether any mineral oil is or is not suitable for use as an illuminant in wick lamps."

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to amend the Import Tariff so as to apply the rate of duty prescribed for kerosene to all other mineral oils (excepting motor spirit) which evince, tested by a standard lamp, a prescribed minimum illuminating capacity, and can ther be used as substitutes for kerosene for burning in lamps. The change is necessary in ord put an end to what has become a steadily increasing loss of revenue.

2. The rates of duty on kerosene are as follows :—

		As.	ps.
Customs import duty—			
(*a*) Basic duty		2	3
(*b*) 1st surcharge		0	9
(*c*) 2nd surcharge 25 per cent. of (*a*) *plus* (*b*)		0	9
	Total	3	9
Excise duty—			
(*a*) Basic duty		1	6
(*b*) 1st surcharge		0	9
(*c*) 2nd surcharge 25 per cent. of (*a*) *plus* (*b*)		0	6¾
	Total	2	9¾

3. For some time past large quantities of light fuel oil (light diesel oil) have been imp for use in India as illuminants. Such oil is not so used in other countries and no trade pra could be established by which it could be described as "kerosene." The latter term, thou has been defined for the purpose of the excise duty, is not so defined in the Import T and therefore has to be interpreted by Customs officers in accordance with trade usage. consequence is that the imported oil in question cannot be treated as kerosene under Import Tariff ; but where use as an illuminant can be proved, such use takes it out of the T definition of fuel oil (duty 12½ per cent. *ad valorem*), so that it becomes dutiable as "oils, sorts" at 25 per cent. *ad valorem*, equivalent to about 9 pies a gallon. The application of rate still leaves these oils with a very considerable advantage over the oils which pay duty a "kerosene" rate with the result that the recognised kerosene oils, and particularly an in quality which is largely made in Burma, are being displaced to an extent which is increasing by day to the detriment of the local industry as well as of the revenue derived from the in and excise duties on kerosene.

4. No satisfactory dividing line between illuminating and non-illuminating oils bas their physical constants or chemical properties has so far been formulated, but a standard to test burning capacity has been devised. The Bill provides for giving the Government p to prescribe this pattern of lamp as the one to be used in testing imported oils for the purp the new tariff entry and to frame rules laying down other particulars of the tests to be appli

CALCUTTA, THE 21ST DECEMBER 1933.

RESOLUTION—No. 14963 Emi.

The Report on inland emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1933, submitted by the Superintendent of Emigration, Calcutta, and the District and Assistant Superintendents of Emigration.

There was a further decrease in the number of emigrants despatched to the labour districts during the year under review, recruitment being curtailed owing to the general economic depression.

2. Recruiting operations in this Presidency were conducted only in the districts of Birbhum and Midnapore. The number of garden sardars employed during the year was 13 (including 3 sardarnis) as against 60 and 100 in the two previous years. They all worked under the control of licensed local agents. The number of local agents' licenses was 15 as against 14 issued in the previous year. The total number of emigrants recruited in Bengal was 56 as against 97 in the previous year. Of these, 13 came from Birbhum and the rest (43) from Midnapore. The total number of recruits from Bengal and other provinces embarking at Goalundo was 569, as compared with 1,522 in the previous year. During the year under report no emigrant was despatched to Assam by the steamer route *via* Goalundo, though 1,027 emigrants were sent by this route in the previous year. The reason for this is apparently that the railway route *via* Amingaon is preferred as being the quicker for conveyance of emigrants to the tea gardens of Assam proper.

3. The rest houses for emigrants at Asansol, Kharagpur, Naihati and Goalundo maintained by the Tea Districts Labour Association were frequently inspected and their condition was found to be in all respects satisfactory.

4. Of the 51,193 emigrants who halted at Naihati 12,926 went to the Dooars and the rest with the exception of one mentioned below went to Assam, Cachar and Sylhet *via* Amingaon and Goalundo. Among the total number of emigrants who arrived from the different recruiting districts in and outside the Presidency of Bengal, two deaths, one from small-pox and the other from diarrhoea, and one desertion occurred during the halt at Asansol and one desertion at Naihati; no other death or desertion occurred amongst the emigrants in transit. As in the previous year there was no desertion nor death among the emigrants during their journey from Goalundo to their final destinations.

5. In connection with the transport of labour to Assam both receipts and expenditure increased from Rs. 700 to Rs. 950 and from Rs. 7,544-6 to Rs. 7,748-5, respectively, as compared with the previous year.

6. The office of the Superintendent of Emigration was held by Lieut.-Col. K. S. Thakur, I.M.S., from the beginning of the year up to the 17th November 1932 and by Lieut.-Col. A. Denham White, I.M.S., from the 18th November 1932 till the end of the year. The thanks of the Governor in Council are due to them and to the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

Secy. to the Govt. of Bengal (offg.).
